A LETTER OF THANKS

January 3rd, 2020

To The Valued Customers of GoodWe,

Happy New Year and we wish you all the best in 2020. 大吉大利，财源滚滚。

Thank you very much for your support to GoodWe & GoodWe Solar Academy in 2019, with your support last year we have been to more than 50 countries and held more than 150 trainings including conference, event, workshop and webinar which covered more than 4000 participants. Thanks again for your participation and amazing support.

GoodWe Solar Academy is dedicated to providing pre-sales support beyond customers expectation and becoming an open platform for knowledge sharing and communication in terms of PV industry, products and applications to all people in this field, therefore, last year we did 'Enjoy Solar Magazine', technical documents sharing and videos to share our knowledge and understanding of PV system applications, you can find these materials in our official website <https://en.goodwe.com/solar-academy.asp> and Youtube and Facebook 'goodwesolaracademy'.

We are always trying to find more ways to provide better pre-sales service to our customers, following slides you can see what we did in details in the last year, we sincerely hope you can provide your valuable advice to us to promote our growth.

Looking forward to hear from you.

Best Regards

Lucas Lu

GoodWe Solar Academy Manager

Training

The training we offer includes not only conference, event and workshop, but also one-to-one training and webinar to collect customers' opinions to improve our products.

Training Highlights

Brazil

Turkey

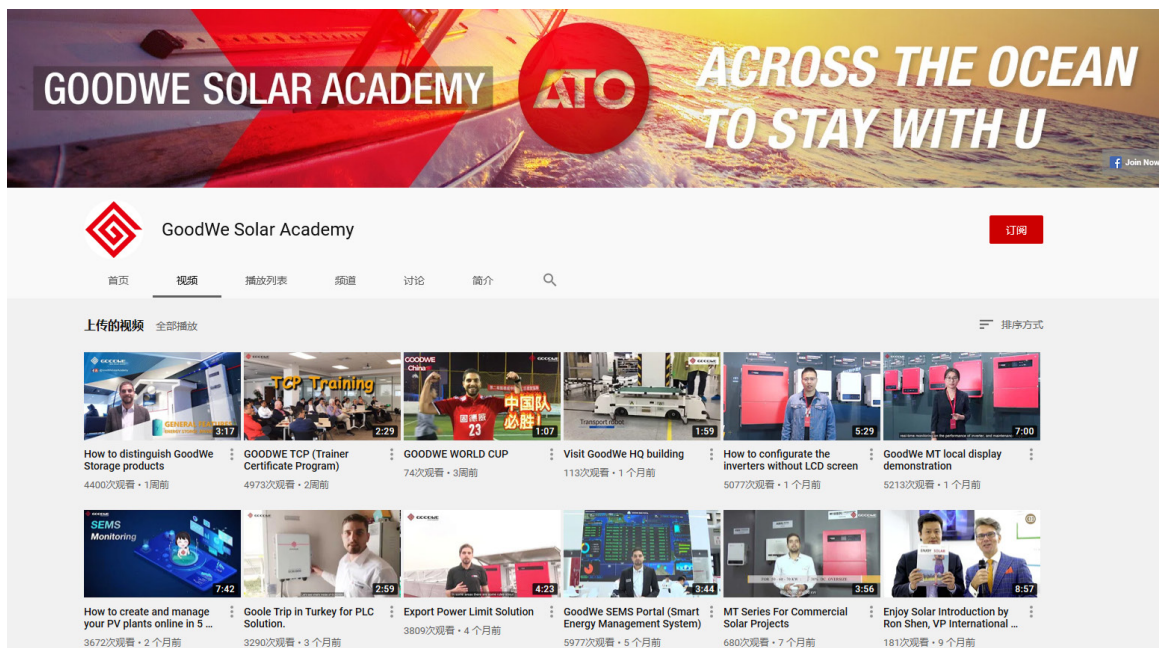

Enjoy Solar Magazine

In these magazines, there is not only information about inverters, as we focus on the whole PV industry, such as PV modules, cables, insurance, safety, policy, monitoring, etc. we got a lot of support from our partners, thanks for all the support from our partners in the process of this magazine, and we expect more partners will join us to build this platform together. Until to now, we have published 5 issues of Enjoy Solar Magazine including Spanish & Turkish version.

Videos on Youtube & Facebook

Since the second half of 2019, we have released 12 videos to Youtube & Facebook to introduce our new products and functions, and also introduce how to operate on display or Apps. please let us know If you have good ideas or videos topics you want to know.

Technical documents

In order to keep customers informed of new features of our products, detailed feature introduction articles will be made and some of them already uploaded to our official website. In 2019, we have produced more than 50 technical articles, some of which have been uploaded to website.
